NOTES:

1. Federal regulations limit certain transfers and/or withdrawals from savings-type accounts. The six (6) transactions permitted per month includes transfers or withdrawals by automated devices (computer or telephone), preauthorized and payments to third parties.

2. Bill Pay services are allowed on sole proprietorship accounts only. Bill Pay Overnight Payment if information is entered for payment prior to 1:00pm EST. All overnight payments will be sent as checks and cannot be scheduled for a weekend or holiday delivery. The delivery address must be a street address (no PO boxes, international or military addresses). The check will be delivered by UPS and the member will receive a tracking number via email. Only the delivery of the check, not the posting, can be guaranteed so this option should not be used where a service such as utility might possibly be cut off.

3. Popmoney® is a personal payment service that enables members to send and receive money to payees, regardless of where they have their checking account, using only an email address or mobile phone number. No direct exchange of account information is required. The recipient will receive an email or text message alerting them that they are being sent money. The first time they get a Popmoney® payment, they will need to register with Popmoney® and provide the checking account information into which the payment is to be made. If that information is provided by 5pm EST, an ACH transaction the next day will withdraw money from the sender and deposit it to the recipient. After the initial setup, future transactions to that person can be made without any further action on their part. If a payment is not claimed within twelve (12) days, the offer will expire, and no transaction will occur.
